## Media Statement

### All Media Houses

**Date: 17 March 2025**

### For Immediate Release

### MEC Thomo to conduct scholar transport monitoring and oversight visits

Mpumalanga MEC for Public Works, Roads and Transport, Mr Thulasizwe Thomo, will be embarking on a crucial week of monitoring scholar transport across various areas in the province. This initiative aims to ensure the safety and reliability of transportation services provided to our learners, reflecting our commitment to their well-being and educational access.

In addition to the scholar transport monitoring, MEC Thomo will also conduct oversight visits to the Dlodluma Road construction project. This visit is vital to evaluate the progress and compliance with project timelines, ensuring that infrastructure developments meet the needs of the community and contribute positively to road safety.

Furthermore, MEC Thomo will visit Mbombo Combined School to assess the ongoing renovations. This is part of our broader commitment to improving educational facilities, fostering an environment conducive to effective learning and teaching.

Ends.
