DEPARTMENT: EDUCATION  
MPUMALANGA PROVINCE

# Mpumalanga:

reaches 80.1%, making it the most Improved Province in the Country

- 77.6% Passrate
- 10.1% Improvement
- 32.2% Improvement since 2009

# Premier applauds the Class of 2014

It is a great honour and pleasure for me to give a congratulatory message at this 2013 edition of the release of Grade 12 results. It is indeed good to be addressing you and I should say particularly good as I have to speak directly to our matriculants who have made us proud by obtaining such outstanding results and also attach a very special meaning to this day and event.

I need not remind you that these learners represent the future of our country and province in particular and that for them this is a dawn of a new day and a new world order as they leave secondary education embarking on a journey through tertiary level.

I must say that as a parent and a teacher by profession, I am quite aware of the intangible rewards in the form of emotional contentment and excitement that accompanies a great achievement of a child on the school front.

By natural progression such excitement is propelled and extended to a community and the nation, touching almost every household as we ponder a hopeful and brighter future for our children. There is nothing more than this that is capable of providing more material for building potential dreams and keeping the hopes of a family and the entire nation alive.

I congratulate the Class of 2013 on meeting the requirements to pass Grade 12. I want to reassure those of you who have fared well that your achievement is a message that the world is your oyster and that now you are at an opportune time to take advantage of those dreams you haboured since your childhood.

Grab this opportunity with both your hands and run with it. Allow me to borrow the words of our former President and founding father of our new democracy, Nelson Mandela who said, "Education is the most powerful weapon which you can use to change the world." I am convinced that he is at peace with your achievements today. May his Soul Rest in Peace.

My beloved children go on and represent our beloved Province at your tertiary institutions of choice by keeping the midnight candle burning as you work hard and smart for that qualification that will ultimately bring value to the people of our province. I am also happy that the doors of learning shall be opened for the University of Mpumalanga in 2014 and that some of you may be amongst the first cohort of students to enrol.

Let me also congratulate parents and teachers whose day to day efforts and inputs have essentially made it possible for our learners to realise their potential which ultimately propelled them to such great achievements.

Congratulations to all the traditional and religious leaders, who have rallied their communities to heed the call to focus on the education of their communities and also striving to make resources available to attain such a goal.

Let me also congratulate civil society, business and all stakeholders in the education sector for their contributions and patriotic actions of availing human as well as capital resources to the main course of educating our nation. This is a journey that we need to undertake together for education is everybody's business■

***“ This is a dawn of a new day and a new world order as they leave secondary education embarking on a journey through tertiary level.” - Premier DD Mabuza***

**Ecstatic, Honorable Premier, Mr DD Mabuza with Top Leaners**

# ANC Welcomes Matric Results

The African National Congress in Mpumalanga welcomes the Matric results as announced by the MEC for Education, Ms. Reginah Mhaule this morning. Mpumalanga has a pass rate of 77.6 percent, which is a massive improvement since 1994.

The results are proof enough that MEC Mhaule and the entire education sector has put a lot of effort in ensuring that MPUMALANGA is ranked amongst the best performing provinces in the

country.

The ANC declared education as one of the five key priorities during last year state of the nation address by President Jacob Zuma. The increased pass rate is as a result of commitment by the provincial government and the education department.

Furthermore, the ANC congratulates educators, parents, the school governing bodies and all other stakeholders for working together for the benefit of the learners in 2013. The ANC encourages the class of 2014 to work hard and improve the Matric results.

The ANC wishes to advise those learners who have not made it not to take this as the end of the world but to pursue available opportunities to obtain better pass rates. We encourage them to start in earnest preparing for the year ahead

## DA welcomes improved Mpumalanga matric results

The Democratic Alliance congratulates all successful matriculants for the 2013 school year in Mpumalanga and welcomes the province's improved Matric results.

The province's overall pass mark of 77.6% was announced earlier today by education MEC Reginah Mhaule, and is a significant improvement from 2012's 70% pass rate, and that of 64.8% achieved in 2011.

All the districts in the province improved on 2012's results with Ehlanzeni leading the pack with a 82% pass rate, up from 74% in 2012. The DA is also encouraged by the performance of top learners in the province, in particular Bhavika Sureshkumar Mistry from Hoërskool Hoogenhout in Bethal. Bhavika achieved eight distinctions and an overall mark of 1 689 points.

Good matric results are only possible through quality education provided by dependable, diligent schools, and the DA is proud that 25 schools in the province met their obligations and achieved a 100% pass rate.

Hoërskool Nelspruit was the best performing school in the province for the second consecutive year, and not only achieved a flawless pass rate, it also secured the most distinctions in the province, 464 in total. Furthermore, due to the outstanding performance of its learners in maths, it was also the only school in the province that qualified for Club 100.

Although the DA is encouraged with the province's performance - especially given that in 2009 Mpumalanga was the country's worst performer with a meagre 47,9% - we believe that further analysis into the 2013 results needs to be done before we can be assured that indeed progress is being made in terms of education in the province.

An issue the DA is particularly concerned about is the drop in the 2013 science marks, which was confirmed by MEC Mhaule. Science, like maths, is a crucial subject in securing a matric exemption-level pass, and thus more needs to be done to assist learners in this regard.

Although a matric certificate is a stepping stone towards a better future, a tertiary education is the rock for such a future.

We welcome MEC Mhaule's commitment to continue working at securing good results, and believe this will go a long way to making life better for all

# COSATU congratulates the Class of 2013

The 77.6% Mpumalanga pass rate for the 2013 matric class which is a 7.6 % improvement from the 2012 pass rate, is appreciated by the Congress of South African Trade Unions in Mpumalanga, it is impressive, a welcomed development and a step in the right direction towards the realisation of the objectives of the Freedom Charter which states that "the government shall discover, develop, and encourage national talent for the enhancement of our cultural life"

We congratulate the Provincial Department of Education led by MEC Reginah Mhaule and all the stakeholders within education , because we believe that the overall achievement by the matric class of 2013 is a product of collaborative efforts, hard work, commitment, sacrifice , and dedication by both the students , parents , the department , business , civil society and most importantly the teachers organised under affiliate SADTU who gave it all in ensuring that Mpumalanga achieves the status of being declared the second most improved province in the country. Mpumalanga has improved from 47.9 % in 2009 to 77.6 % pass rate in 2013 which constitutes a 29.7% improvement over a period of only four years.

We welcome the sterling performance by all our districts in the province as they all have achieved more than 70% pass rate, with our best performing Ehlanzeni district achieving a whopping 82.2% pass rate in 2013. We are further encouraged by the fact that Mathukwane High School which is a quintile one school from the most rural areas of our province is amongst the 25 schools in the province that have achieved a 100% pass rate. The number of learners passing mathematics has improved with 58.3 % passing mathematics and 529 learners passing mathematics with distinctions.

It is most encouraging that the majority of learners who obtained distinctions in mathematics, physical science and life sciences are from the previously disadvantaged communities whose schools have inadequate resources, no running water, no electricity and sometimes no libraries.

These achievements makes the class of 2013 to be the best since the advent of democracy and it further confirms the correctness of the decision taken by our democratic government to declare education an apex priority and investing a lot of financial and human resources towards the improvement of education in our country.

COSATU in the province commits to play an active and constructive role in encouraging all children of school going age to be at school, actively learning for at least seven hours a day and all teachers to play their active role in providing education to our children.

We shall do this because we believe that education is the most powerful weapon which you can use to change the world

# Bhavika Tops the 2013 Class

She has always displayed the behavioural characteristics of a special child from her early childhood. We took note of her high levels of intellect and school achievement during her early years of schooling," these were the words of an excited Sure Kumar, Bhavika Mistry's mom after her child was declared the Overall Top Learner in Mpumalanga following the 2013 Grade 12 results.

Mistry Bhavika hails from Bethal and studied at Hoërskool Hoogenhout and was presented with a Toyota Etios to the value of R140 000 courtesy of Imperial Toyota Nelspruit for her outstanding achievement at the function for the announcement of the 2013 Grade 12 results held on the 07 January 2014 at the Protea Hotel in Hazyview, Bushbuckridge.

She obtained distinctions in all her seven subjects; Mathematics, Physical Sciences, Life Sciences, Accounting, Life Orientation, English and Afrikaans.

On top of the Toyota Etios, Bhavika also received tokens of appreciation which include, a laptop, refrigerator, TV set, iron and fan. The Department offered her a bursary to further her studies at a university of her choice.

The young lady could not hold back her tears of joy as she reminisced about how her hard work and support from both her teachers and parents had paid off. When asked about her plans for the future she confidently stated that she plans to study towards an Actuarial Sciences qualification with the University of Pretoria.

Imperial Toyota Nelspruit's Mr. Desmond Bosch who ensured that as Bhavika goes to Pretoria University to do her bachelors degree in actuarial sciences, she is mobile to reach her destination with ease, said; "We have donated this car for the love we have for education as well as our believe that this will inspire more learners to do well in their studies."

The Mpumalanga Department of Education wishes Bhavika the best with her studies and appreciates the gesture of Imperial Toyota Nelspruit and all the sponsors of the event ■

# Sponsors

The Department extends its profound appreciation to all who sponsored the occasion of the announcement of the 2013 rade 12 Results. May your business prosper in 2014 and beyond.

NATIONAL YOUTH DEVELOPMENT AGENCY

# Improvement plan already tabled for implementation

The Department has already developed an improvement plan for the class of 2014 in keeping with the dictates of the National Strategy for Learner Attainment (NSLA), and the provincial learner attainment strategy known as the Schooling Transformation and Reform Strategy (STaRS).

The plan is informed by findings of in-depth analysis of performance of learners in previous standardized assessments, the research conducted on internal assessment practices in and the NSC Grade 12 Results, NEEDU report and other reports.

**The plan seeks to:**

- Increase the number of learners who qualify for a bachelor entry at University
- Increase the number of learners that pass Mathematics and Physical Science at 50% and above
- Achieve 87.6% in 2014 Grade 12 Results.
- Improve the competency of grade 3, 6 and 9 learners in Languages and Mathematics = 60%
- Improve performance in subjects that perform low in the provincial average viz. Mathematics, Physical Sciences, Accounting and Economics –the only subjects performing below 70%
- Ensure accountability on poor performance across the system in both public and independent schools

**A differentiated approach that has three categories of performance will inform support as follows:**

- Best Performance (80 – 100%)
- Mediocre Performance (51 – 79%), GET
- Underperforming Schools GET under 50%; FET: under 60%

**The following strategies will apply in schools with best performance:**

- Support schools at 100% pass rate to continue passing all learners every year.
- Commit all other schools to achieve 100% pass rate and improve number of bachelor passes.
- Participate in common assessments by choice.
- Develop Subject Performance Improvement Plans (SPIP)
- To share best practices with poor performing schools within the circuit & district.
- Subject Grade 12 learners to a standardized preparatory (trial) examination.
- Submit reports for quarterly review sessions.
- Conduct moderation and
- Utilize print & electronic media (Including other technology) in enhancing teaching & learning.

**The following strategies will apply in schools with mediocre performance:**

- Conduct analysis of content & identify problem areas at the beginning of the first term and at end of each term
- Develop & implement a School Improvement Plan (SIP) at the beginning of the first term and assess it quarterly.
- Develop & implement Subject Performance Improvement Plans (SPIP)
- Provide material and train teachers on identified content and methodology in areas that are a challenge.
- Provide onsite curriculum support per subject at least quarterly
- GET grades write quarterly mental Maths tests and Languages of Learning and Teaching assessments
- Subject Grade 12 learners to externally set common quarterly tests.
- Subject schools to an externally set Grade 12 Half Yearly Examination.
- Subject schools to an externally set Grade 10 + 11 end of year exam in big enrolment subjects.
- Provide exam preparatory support in Grade 12 for Maths and Science from September onwards
- Subject Grade 12 learners to a standardized preparatory (trial) examination
- Develop Subject Curriculum Improvement Plans for all subjects with intense monitoring for the top 4 high enrollment subjects

- Provide a variety of teaching and learning resources to schools like study guides, question banks and recorded videos. Reading & Phonic Programmes, Mathematics kits
- Facilitate the formation of grade 12 study groups and support them.
- Rigorous moderation of school based tasks
- Monitor curriculum coverage and workbook useage and
- Submit reports for quarterly review sessions.

**The following strategies will apply in schools that are underperforming:**

- Commit & motivate the schools to move over to either the best or good performance category (SGBs and SMTs to sign a pledge)
- Conduct analysis of content & identify problem areas at the beginning of the first term and monthly for 5 top enrollment subjects.
- Conduct training on identified challenging content areas & related methodology and the use of workbooks.
- Develop & implement a School Improvement Plan (SIP) at the beginning of the first term and assess it quarterly.
- Develop & implement Subject Performance Improvement Plans (SPIP)
- Conduct induction training for newly appointed teachers and those teaching Maths Literacy and Grade 12 for the first time.
- Provide onsite curriculum support per subject at least once per month
- Subject Grades 3,6,9 and 12 learners to externally set common monthly tests in priority subjects
- Conduct externally set monthly tests
- Conduct externally set Half Yearly Examination for Grade 12 Learners
- Subject Grade 12 learners to a standardized preparatory (trial) examination.
- Write weekly and quarterly mental Maths tests in GET
- Provide a variety of teaching and learning resources to schools like study guides, question banks and recorded videos, Maths Kits, Phonic Programmes & Reading materials.
- Provide schools with previous question papers and question banks.
- Rigorous moderation of school and teacher assessments
- Monitor curriculum coverage and workbook utilization monthly.
- Submit performance reports for quarterly review sessions.
- Compulsory winter schools in selected subjects
- Facilitate the formation of grade 8, 9 &12 study groups and support them.
- Hold principals, Curriculum Implementers and Subject Heads accountable for such performance.
- Allocate suitable mentors to the schools by the beginning of the first term and
- Enforce and monitor the writing of daily practice activities (Maths) e.g. homework.

The Department had already convened a series of consultative meetings with different stakeholders to present this plan and what is encouraging is that almost all sectors have given the department green light to implement it.

It is envisaged that through the implementation of this plan the department will ensure that there is no school that obtains results that are below 60% and that the overall pass rate improves by 10% in all grades■

***“The plan is informed by findings of in-depth analysis of performance of learners in previous standardized assessments, the research conducted on internal assessment practices in and the NSC Grade 12 Results, NEEDU report and other reports.”***

# Prayers Solicited

About 700 pastors from across the province congregated on 25 January 2014 at eMnotweni Arena to pray for smooth implementation of programmes aimed at improving learner performance in 2014.

This is line with the call made by the Honourable Premier, Mr. DD Mabuza that every effort needs to be made to qualitatively improve the learner outcomes in all grades.

Speaking at this occasion the MEC for Education Mrs. Reginah Mhaule expressed her appreciation to the role played by religious leaders within the ambit of the Moral Regeneration Movement in motivating teachers and learners and instilling good and acceptable values that may propel all to stay focused in their school work at all times.

In this regard she said: "It is through your good thoughts and dedication that we were able to obtain such credible accolades as a province. We thank you. Allow me to take this very opportunity and express my gratitude towards the Moral Regeneration Movement for taking stock in matters of education.

Your steadfast participation has evidently steadily decreased concerns of moral decay in our youth, more especially from those that are still attached to our schools, as we are still afforded the chance to act as potters and shape their young lives with positive influences. The Department cannot even begin to express the appreciation we have for the support we receive from the Movement, your good office constantly reminds us of our responsibilities and the importance of serving the province in a loyal and patriotic manner"

The MEC further requested religious leaders to encourage community members to register to vote in the upcoming elections and to pray for peace and stability during that time and beyond.

At the end of the day pastors in their numbers prayed for the leadership of the department, teachers, learners and their parents, for peaceful elections and for the leaders of this country, for prosperity and better life for all.

This prayer session was convened by the Department working together with the Provincial Moral Regeneration Movement ■

# Pastors Requested

- To work with School Governing Bodies.
- To render voluntary counseling, motivation and support to teachers, learners and parents.
- To encourage communities to value education.
- To encourage communities to get involved in Education programs.
- To help to instill value system amongst learners.
- To discourage learners from using substance abuse.
- To pray for all school role players.
- To avail their building for education related activities.

# MEC Mhaule Confers Special Awards

The MEC for Education, Mrs. Reginah Mhaule took time to appreciate all the people and institutions that supported the Department in all its efforts to deliver quality education, at the occasion of the announcement of the 2013 Grade 12 results held on 07 January 2014 in Hazyview.

The Kwaggafontein Shopping Plaza in the Thembisile Hani Local Municipality was one of the institutions honored as they have played a major role in the quest to reduce levels of absenteeism in schools by ensuring that children of school going age are not seen loitering at the plaza during school hours without any substantial explanations. The plaza was presented with a trophy and a certificate as a form of appreciation from the Department.

The MEC for Education, also saw fit to congratulate Mr. Sibusiso Judas Mudala, a 34 year old blind learner who through specialized computer software, provided by the Department was able to write three subjects as a part time Grade 12 candidate in 2012 and proceeded with his studies in 2013 in order to complete his matric.

Mr. Mudala shared that he plans to study towards a B. Ed Degree at the University of Limpopo. The Department has granted him a full bursary in order for him to reach his goals, and he was also presented with a trophy, certificate, travelling bag and laptop.

MEC Mhaule was proud to also introduce the province to one of its gems, Mrs. Annah Msimango who in the year 2013 was declared as the best adult learner in the country at the Adult Learner Week Awards in September 2013.

Annah Msimango, who is 60 years of age hails from Emalahleni local municipality in Kwaguqa and was illiterate until the age of 59. She is currently doing her level 2. The Department appreciated Mrs. Msimango's efforts with a trophy, certificate, travelling bag and a laptop.

Mr. Mudala and Mrs. Msimango serve as proof that the Mpumalanga Department of Education supports the citizen of the province, in order to rise against challenges which may have otherwise prevented them to achieve their educational goals ■

# Rhandza Xikolo Xa Wena Campaign

Rhandza Xikolo Xa Wena" is Xitsonga and can be loosely translated as "Love or take good care of your School.

On Monday, 13 January 2014, The Mpumalanga Department of Education launched this ongoing campaign which aims at inspiring and motivating parents, communities and school governing bodies to voluntarily clean up their nearest schools and infrastructure preferably before the first day of schooling, this is done to avoid disruptions and delays in teaching and learning.

The launch was organised at Maloma Primary School, Ackerville, in Emalahleni. The MEC for Education, Mrs. Reginah Mhaule geared up and rolled up her sleeves and led by example as she assisted with the painting and fixing of doors at the school.

"We call upon our communities to take good care of their schools to the full benefit of their children. We implore them as a Department to contribute their time and skills to work for the beauty and safe learning and teaching environment at schools," said MEC Mhaule.

The Rhandza Xikolo Xa Wena initiative remains an ongoing campaign as it is continuously urging School Governing Bodies and business entities in the province to work with the Department to maintain school infrastructure within the province.

The campaign serves as a reminder to all community members to know that they are responsible for taking care of school infrastructure as public schools serve the community to the advantage of learners in their particular area.

It therefore encourages them to take part in the maintenance of the school infrastructure by fixing broken doors, broken window panes, planting of trees and vegetables, painting of the school buildings, roof maintenance and the fixing of cracks and ceilings.

School communities are thus encouraged to also come up with solutions that will benefit the schools.

The initiative gives room for business people who have an urge to contribute towards the maintenance of schools to extend a hand and make a contribution.

This gesture is always appreciated as it ensures that the processes of fixing schools are never at a halt.

The Department also encourages school communities to make their contributions be it in a form of building material, of monetary value or human skills ■

Hard at Work, MEC Mhaule and Team
